

ADAPTIVE. TRUSTED. RESPONSIVE.

COMPLETE SOLUTIONS

We design, fabricate, install, and maintain complete fire protection systems. Our leadership and staff experts possess knowledge that can only be attained through lifelong dedication to all facets of fire protection.

TRUSTED PARTNER

Century Fire has a proven track record on installation and service projects dating back to the early 2000s. Our skills and expertise are the reason general contractors and building owners, operators, managers and maintenance professionals choose us to manage their fire protection projects year after year.

WORK WITH EXPERTS

We have hundreds of certified and licensed managers and field technicians ready to install and service all types of fire protection systems from sprinkler to alarm to special hazards suppression systems. From the office to the field, each employee is specialized in their area of practice and the best at what they do.

CAPACITY TO DELIVER

With more than 1,000 employees and a large footprint across the Southeast, we have the resources and capacity to deliver on your next fire protection project.
